Kentucky CTE

Computer Science: JavaScript

In the JavaScript language be able to do the following: design programs, develop programs, compile programs, debug programs, test programs, run programs, document programs JS1	**1 In the JavaScript language be able to do the following: design programs, develop programs, compile programs, debug programs, test programs, run programs, document programs** JS1
Design and develop programs using operators and assignments. JS2	**2 Design and develop programs using operators and assignments.** JS2
Design and develop programs using a variety of data types. JS3	**3 Design and develop programs using a variety of data types.** JS3
Demonstrate the input and output processes in JavaScript. JS4	**4 Demonstrate the input and output processes in JavaScript.** JS4
Design and develop programs using sequence, selection, and repetition structures JS5	**5 Design and develop programs using sequence, selection, and repetition structures** JS5
Demonstrate pattern matching using JavaScript. JS6	**6 Demonstrate pattern matching using JavaScript.** JS6
Demonstrate JavaScript objects JS7	**7 Demonstrate JavaScript objects** JS7
De to Skip to main content	**emonstrate the ability to write JavaScript application scripts** JS8

application scripts JS8

Evaluate and critique effectiveness and efficiency of code. JS9	**9** **Evaluate and critique effectiveness and efficiency of code.** JS9
