Performing

4. Select, Analyze and Interpret artistic work for performance

- a. Identify and demonstrate directions for moving the body using locomotor and nonlocomotor movements in personal and general space (i.e. forward, backwards, sideways, up, down, turning). Make body shapes (i.e. straight, bent, curved) that change levels and vary in size. Move in straight, curved and zig-zagged pathways.
- b. Identify fast, moderate and slow movements. Recognize steady beat and move to varying tempi of steady beat. Identify and move on the downbeat of duple and triple meter.
- c. Demonstrate movement qualities along with movement vocabulary (for example, use adverbs and adjectives that apply to movement such as a floating leap, a floppy fall, a jolly jump, and joyful spin). Move with opposing movement qualities (e.g. sudden/sustained, light/heavy, jerky/smooth). Identify and apply different characteristics to movements (e.g. slow, smooth, or wavy).

5. Develop and refine artistic techniques and work for presentation

- a. Demonstrate a range of locomotor and non-locomotor movements, body patterning, body shapes, directionality, and dance sequences that require moving through space.
- b. Move safely in a variety of spatial relationships and formations with other dancers, sharing and maintaining personal space.
- c. Repeat movements, with an awareness of self and others in space.

6. Convey meaning through the presentation of artistic work.

- a. Dance for and with others in a space where audience and performers occupy different areas.
