

Introduction to Graphic Design (2012)

Demonstrate employability skills required by business and industry. AAVTC-IGD-1

1.1 Communicate effectively through writing, speaking, listening, reading, and interpersonal abilities. AAVTC-IGD-1.1

1.2 Demonstrate creativity by asking challenging questions and applying innovative procedures and methods. AAVTC-IGD-1.2

1.3 Exhibit critical thinking and problem solving skills to locate, analyze and apply information in career planning and employment situations. AAVTC-IGD-1.3

1.4 Model work readiness traits required for success in the workplace including integrity, honesty, accountability, punctuality, time management, and respect for diversity. AAVTC-IGD-1.4

1.5 Apply the appropriate skill sets to be productive in a changing, technological, diverse workplace to be able to work independently and apply team work skills. AAVTC-IGD-1.5

1.6 Present a professional image through appearance, behavior and language. AAVTC-IGD-1.6

Explore careers available in the field of graphic communications and the design industry. AAVTC-IGD-2

2.1 Identify the certificates, diplomas, and degrees available. AAVTC-IGD-2.1

2.2 Compare and contrast careers in graphics and design, along with their education, training requirements, and salary ranges. AAVTC-IGD-2.2

2.3 Identify the college majors that are found in the area of graphics design and communication. AAVTC-IGD-2.3

2.4 Investigate how graphics and design permeates our daily lives. AAVTC-IGD-2.4

2.5 Demonstrate understanding of education and career development as a lifelong learning process. AAVTC-IGD-2.5

2.6 List and describe professional organizations in the field of computing. AAVTC-IGD-2.6

Discuss developments and individuals relating to the history of the

3.1 Describe the development of the graphic communication and design industries. AAVTC-IGD-3.1

graphics and design industry and explore emerging trends and technologies. AAVTC-IGD-3

3.2 Identify persons with major contributions to the field of graphic design. AAVTC-IGD-3.2

3.3 Outline the history of printing and graphic design and explain its effects on the print/design industry and society. AAVTC-IGD-3.3

3.4 Identify and describe emerging trends and technologies. AAVTC-IGD-3.4

Examine the professional and ethical issues involved in the visual communications and design industries. AAVTC-IGD-4

4.1 Identify basic copyright issues for graphic communications and design industries to include understanding the use of Creative Commons copyright. AAVTC-IGD-4.1

4.2 Explain the consequences of copyright infringement. AAVTC-IGD-4.2

4.3 Explain ethics issues for the graphic communications and design industries. AAVTC-IGD-4.3

Examine and describe the business cycle elements. AAVTC-IGD-5

5.1 Describe the job flow from initial customer contact to collection of payment. AAVTC-IGD-5.1

5.2 Interpret basic business terms. AAVTC-IGD-5.2

Explain and demonstrate how to operate equipment in a safe manner. AAVTC-IGD-6

6.1 Identify safety features and practices. AAVTC-IGD-6.1

6.2 Describe proper personal protection equipment needed. AAVTC-IGD-6.2

6.3 Read and interpret equipment operating instructions. AAVTC-IGD-6.3

Identify safety and health procedures utilized in the classroom/lab environment. AAVTC-IGD-7

7.1 Identify location of safety and first aid equipment. AAVTC-IGD-7.1

7.2 7.2 Identify procedures for emergency situations. AAVTC-IGD-7.2

7.3 7.3 Identify procedures for handling hazardous and combustible materials (MSDS, OSHA). AAVTC-IGD-7.3

7.4 Identify proper ergonomic practices. AAVTC-IGD-7.4

7.5 Describe OSHA, MSDS, and EPA. AAVTC-IGD-7.5

7.6 Describe Lockout and Tagout. AAVTC-IGD-7.6

7.7 Explain Right to Know. AAVTC-IGD-7.7

Demonstrate proper usage of measuring units and devices. AAVTC-IGD-8

8.1 Examine and construct documents with multiple measurement systems used in the field (including inches and picas). AAVTC-IGD-8.1

8.2 Understand and accurately execute measurement conversions. AAVTC-IGD-8.2

Recognize and utilize basic paper types and sizes for output. AAVTC-IGD-9

9.1 Determine size, weight, quantities, type, and amount of paper necessary for fulfilling a job order. AAVTC-IGD-9.1

Generate and manipulate various graphic imaging processes. AAVTC-IGD-10

10.1 Discern appropriate use of technology in areas of color and design choices. AAVTC-IGD-10.1

10.2 Evaluate photographic digital input techniques for maximum effect. AAVTC-IGD-10.2

10.3 Manage resolution issues. AAVTC-IGD-10.3

10.4 Assess the issues of sizing images in various forms. AAVTC-IGD-10.4

Analyze pre-press, pre-flight, and output operations. AAVTC-IGD-11

11.1 Determine and use proper imposition to save materials used in multi-page and multi-piece projects. AAVTC-IGD-11.1

11.2 Position images on substrates using appropriate measurements. AAVTC-IGD-11.2

Understand and demonstrate how to design a page layout. AAVTC-IGD-12

12.1 Demonstrate how to log on/boot-up, save, and print using a page layout program. AAVTC-IGD-12.1

12.2 Demonstrate proper document set-up. AAVTC-IGD-12.2

12.3 Design and produce a document using desired fonts, formatting, margins, indents, tabs, gutters, header and footer, guides, trims, folds, and proper leading AAVTC-IGD-12.3

12.4 Demonstrate text alignment, element positioning, and rules of page design for printed matter. AAVTC-IGD-12.4

12.5 Set-up column grids for page layout according to job specifications. AAVTC-IGD-12.5

12.6 Set up and select appropriate pagination for a given job. AAVTC-IGD-12.6

12.7 Proofread, edit, and make corrections/adjustments to copy on the screen. AAVTC-IGD-12.7

Identify and define the five elements incorporated in basic graphic designs and understand the application of effective color usage. AAVTC-IGD-13

13.1 Identify the utilization of the elements of design including line, shapes, value, mass, space, texture, and color as they apply to basic design. AAVTC-IGD-13.1

13.2 Understand the color wheel: primary, secondary, tertiary. AAVTC-IGD-13.2

13.3 Understand the use of color schemes, such as analogous and complementary colors. AAVTC-IGD-13.3

13.4 Understand and apply the psychology of color in design. AAVTC-IGD-13.4

13.5 Define CMYK and RGB and understand the difference between them and when to use them. AAVTC-IGD-13.5

Identify and produce files utilizing different digital formats. AAVTC-IGD-14

14.1 Describe the strengths and weaknesses of TIFF, EPS, JPG, GIF, PDF, and PNG in a Postscript environment. AAVTC-IGD-14.1

14.2 Create documents/images and demonstrate the ability to save as digital files. AAVTC-IGD-14.2

14.3 Demonstrate how to place scanned graphics/photos into an existing page layout program. AAVTC-IGD-14.3

14.4 Produce digital files using appropriate DPI and PPI resolution for media. AAVTC-IGD-14.4

Identify and demonstrate page layout terminology and tools. AAVTC-IGD-15

15.1 Identify and demonstrate use of basic design principles including figure/ground, unity/variety, proportion/scale, emphasis, contrast, balance, repetition and rhythm. AAVTC-IGD-15.1

15.2 Identify and demonstrate use of layout methods/stages: (1) Thumbnail, (2) Rough, and (3) Comprehensive/Computer. AAVTC-IGD-15.2

15.3 Identify and demonstrate use of traditional and computer-generated tools in the production of page layout. AAVTC-IGD-15.3

Distinguish and demonstrate the difference between page layout, raster-based photo manipulation, and vector-based graphic software applications. AAVTC-IGD-16

16.1 Identify and demonstrate the basic capabilities of page layout, raster-based photo manipulation, and vector-based software applications as they apply to the completion of graphic communications projects. AAVTC-IGD-16.1

16.2 Define and identify the differences between raster- and vector-based software. AAVTC-IGD-16.2

16.3 Demonstrate the ability to properly integrate text and images in a computergenerated page layout. AAVTC-IGD-16.3

16.4 16.4 Demonstrate the ability to properly alter and enhance an image using a rasterbased photo manipulation software application. AAVTC-IGD-16.4

16.5 Demonstrate the ability to create a logo utilizing a vector-based software application. AAVTC-IGD-16.5

Discuss the origins of type by examining the evolution of letterforms. AAVTC-IGD-17

17.1 Define the terms “pictograms”, “ideograms”, “icons” and the distinctions between them and letterforms. AAVTC-IGD-17.1

17.2 Outline the evolution of alphabet, punctuation, upper case letters, lower case letters, and ligatures as elements of typography and explain the effect of each

in its development. [AAVTC-IGD-17.2](#)

17.3 Identify and describe how current communication technologies impact emerging trends in typography. [AAVTC-IGD-17.3](#)

Evaluate the function of typeface design in supporting legibility in a variety of media applications. [AAVTC-IGD-18](#)

18.1 Define the concept of “mood and theme” in typography. [AAVTC-IGD-18.1](#)

18.2 Identify effects applied to typefaces to achieve “readability” and evaluate when each is – or is not – appropriate to use. [AAVTC-IGD-18.2](#)

18.3 Identify major type classifications and define distinguishing characteristics of each such as Roman/Serif, Block/Square Serif, Sans Serif, Script, Black Letter, Decorative/Novelty. [AAVTC-IGD-18.3](#)

18.4 Define the use of reverse type and the concept of weight and color as a type effect. [AAVTC-IGD-18.4](#)

18.5 Identify the four methods of alignment and describe how each impacts the presentation of type. [AAVTC-IGD-18.5](#)

18.6 Define and apply the difference between display type (14pts or larger) and body copy (12pts or smaller) [AAVTC-IGD-18.6](#)

18.7 Select and use appropriate type composition techniques involving leading, tracking, kerning, scaling, and aligning based on job particulars. [AAVTC-IGD-18.7](#)

Distinguish between the different print/output processes. [AAVTC-IGD-19](#)

19.1 Create printed products by using at least two different print processes from design to completion. [AAVTC-IGD-19.1](#)

19.2 Describe the differences between the processes used. [AAVTC-IGD-19.2](#)

19.3 Identify the steps in making an image using one process. [AAVTC-IGD-19.3](#)

19.4 Demonstrate an understanding of the terms and technology of these processes. [AAVTC-IGD-19.4](#)

Explore the different electronic imaging processes. [AAVTC-IGD-20](#)

20.1 Create images by using an electronic media process from concept to delivery. [AAVTC-IGD-20.1](#)

20.2 Identify the steps in making an image using one process. [AAVTC-IGD-20.2](#)

20.3 Demonstrate an understanding of the terms and technology of the process. [AAVTC-IGD-20.3](#)

Examine how related student organizations are integral parts of career and technology

21.1 Explain the purpose, mission, objectives, motto, colors, official dress and other distinguishing characteristics of SkillsUSA. [AAVTC-IGD-21.1](#)

education courses through leadership development, school and community service projects, and competitive events. [AAVTC-IGD-21](#)

21.2 Explain how participation in SkillsUSA can promote lifelong responsibility for community service, professional growth and development. [AAVTC-IGD-21.2](#)

21.3 Explore the impact and opportunities SkillsUSA can develop to bring business and industry together with education in a positive working relationship through innovative leadership and career development programs. [AAVTC-IGD-21.3](#)

21.4 Explore the local, state, and national opportunities available to students through participation in SkillsUSA including but not limited to conferences, competitions, community service, philanthropy, and other SkillsUSA activities. [AAVTC-IGD-21.4](#)
