

Computer Science: Grade 1

Algorithms and Programming

1 Describe the iterative process of program development (including terminology, steps taken, and the logic of choices). 1.AP.PD.1

2 Model the way programs store and manipulate data by using numbers or other symbols to represent information. 1.AP.V.1

Computing Systems

1 Select and operate appropriate device and software to perform a variety of tasks, and recognize that users have different needs and preferences for the technology they use. 1.CS.D.1

Data and Analysis

1 Recognize that a variety of data (e.g., music, video, images, text) can be stored in and retrieved from a computing device. 1.DA.S.1

Impacts of Computing

1 Work respectfully and responsibly with others online. 1.IC.SI.1

Networks and the Internet

1 Explain why we keep personal information (e.g., name, location, phone number, home address) private. 1.NI.C.1
