- e Teachers create opportunities for students to apply disciplinary and cross-disciplinary knowledge to personal experiences and real world problems. **II.2.E**

3 Teachers use a broad range of instructional strategies to make subject matter accessible. II.3

- a Teachers design instruction that reflects the multiple experiences, strengths, and learning needs of students. II.3.A
- b Teachers adapt instruction in response to various levels of student understanding. II.3.B
- c Teachers make meaningful connections between content and students' life experiences. II.3.C
- d Teachers create opportunities for students to engage in self-directed learning. II.3.D

4 Teachers establish goals and expectations for all students that are aligned with learning standards and allow for multiple pathways to achievement. II.4

- a Teachers design learning experiences that are aligned with learning standards. II.4.A
- b Teachers articulate clear learning objectives that align with learning standards. II.4.B
- c Teachers include opportunities for students' to achieve learning goals in a variety of ways. II.4.C

5 Teachers design relevant instruction that connects students' prior understanding and experiences to new knowledge. II.5

- a Teachers determine current levels of students' understanding and knowledge of content through questioning techniques, discussion, and other methods. II.5.A
- b Teachers address common misconceptions in the content area through instructional methods. II.5.B
- c Teachers design learning experiences that connect students' prior knowledge and instruction to new content. II.5.C

6 Teachers evaluate and utilize curricular materials and other appropriate resources to promote student success in meeting learning goals. II.6

- a Teachers organize physical space to reflect an awareness of learner needs and curricular goals. II.6.A
 - b Teachers incorporate a knowledge and understanding of technology in their lessons to enhance student learning. II.6.B
 - c Teachers organize and effectively use time to achieve learning goals. II.6.C
 - d Teachers select and adapt curricular materials to align with state standards and meet diverse learning needs. II.6.D
 - e Teachers access appropriate resources to meet specific learning differences or needs. II.6.E
-

Instructional Practice:
Teachers implement instruction that engages and challenges all students to meet or exceed the learning standards. **III**

1 Teachers use research-based practices and evidence of student learning to provide developmentally appropriate and standards-driven instruction that motivates and engages students in learning. **III.1**

- a** Teachers align instruction to standards. **III.1.A**
 - b** Teachers implement instruction proven to be effective in prior research. **III.1.B**
 - c** Students are actively and cognitively engaged through teacher facilitation of student-to-student and student-to-teacher interactions. **III.1.C**
-

2 Teachers communicate clearly and accurately with students to maximize their understanding and learning. **III.2**

- a** Students understand directions and procedures. **III.2.A**
 - b** Teachers use a variety of questioning techniques to advance student learning and reflection. **III.2.B**
 - c** Students' comments and questions are acknowledged and utilized to advance learning. **III.2.C**
 - d** Students understand lesson content through a teacher's use of multiple modalities, such as oral, written, graphic, kinesthetic, and/or tactile methods. **III.2.D**
