

MS - Coding in Minecraft - Intermediate

Introduction to MakeCode with Minecraft CY31.1

1.01 Navigating the Minecraft environment CY31.1.01

1.02 Creating/Importing a Minecraft world CY31.1.02

1.03 Connecting to MakeCode CY31.1.03

1.04 The basics of MakeCode blocks CY31.1.04

1.05 Understand the role of the Agent CY31.1.05

Using Variables in MakeCode CY31.2

2.01 Identifying variables CY31.2.01

2.02 The usage of variables CY31.2.02

2.03 Creating variables CY31.2.03

2.04 Understand and explain file naming conventions CY31.2.04

Logic in MakeCode CY31.3

3.01 Identify and create IF THEN statements CY31.3.01

3.02 Use Comparison operators CY31.3.02

3.03 Use Boolean operators CY31.3.03

3.04 Identify and create IF THEN ELSE statements CY31.3.04

Loops in MakeCode CY31.4

4.01 Identify and use Repeat loops CY31.4.01

4.02 Identify and use While loops CY31.4.02

4.03 Identify and use For loops CY31.4.03

4.04 Identify and use Forever loops CY31.4.04

4.05 Use the pause command CY31.4.05

4.06 Use the on start loop CY31.4.06

Project CY31.5

5.01 Design and develop a programmatic solution for a problem CY31.5.01
