

First Grade

Waves and their Applications in Technologies for Information Transfer PS4

- 1 Plan and conduct investigations to provide evidence that vibrating materials can make sound and that sound can make materials vibrate. 1-PS4-1
- 2 Make observations to support an evidence-based claim that objects in darkness can be seen only when illuminated by light sources. 1-PS4-2
- 3 Plan and conduct an investigation to determine the effect of placing objects made with different materials in the path of a beam of light. 1-PS4-3
- 4 Use tools and materials to design and build a device that uses light or sound to communicate over a distance. 1-PS4-4

From Molecules to Organisms: Structures and Processes LS1

- 1 Use materials to design a solution to a human problem by mimicking how plants and/or animals use their external parts to help them survive, grow, and meet their needs. 1-LS1-1
- 2 Obtain information from multiple sources to determine patterns in parent and offspring behavior that help offspring survive. 1-LS1-2

Heredity: Inheritance and Variation of Traits LS3

- 1 Make observations to support an evidence-based claim that most young are like, but not exactly like, their parents. 1-LS3-1

Earth's Place in the Universe ESS1

- 1 Use observations of the sun, moon, and stars to describe patterns that can be predicted. 1-ESS1-1
- 2 Make observations at different times of year to relate the amount of daylight to the time of year. 1-ESS1-2
